John Deere Light Running Binder

"It's the lightest-running binder ever built." That is the verdict of grain-growers who have used the Light-Running New John Deere.

That easy pull, so much desired, is a quality built into the John Deere at the factory—the result of knowing how.

THE LIGHT-Running NEW JOHN DEERE GRAIN BINDER

Eight sets of bearings, roller and ball, self-aligning; also means for thorough and convenient lubrication. Every oil hole is easy to get to; every operating part can be oiled properly to reduce wear and lighten draft.

Great strength, wide suspension-type steel wheels, strong, hot riveted frame, rigid platform and elevators.

Improved wheel life and shifts easily—cannot sag or whip.

Elevators of big capacity; no waste, clogging.

Improved guard and sickle—made like a mower cutter bar. Easy to replace.

Handy bundle carrier. A boy can operate it. Does not scatter bundles.

All steel quick-turn Tongue Truck. Wheels hold to the ground. Relieve horses of side draft and pack weight. Keeps binder running straight. Flexible axle—both wheels conform to uneven grounds.

S. G. TOBIN, M. P. ON OUR PROBLEMS

ADDRESS OF MR. S. G. TOBIN
IN REPLY TO GOVERNOR
GENERAL'S SPEECH

Delivered in the House of Commons
on Thursday, January 28, 1926

Taken from Hansard

Mr. S. G. TOBIN, (Wetaskiwin): Mr. Speaker, relying upon the patience and indulgence traditionally accorded to new members in this House of Commons, I wish for a few moments to deal with the motion before the Chair. At the outset I desire to concur in the many expressions of confidence and pleasure in your appointment to the high position you now hold. It is indeed a pleasure to me to congratulate you, Sir, at this time.

I always wish, as is customary, to pay my tribute to the mover and the recorder of the Address in reply to the Speech from the Throne. I find that the mover of the motion has connections in our part of the country. He told us that he has farming connections in Alberta, and in fact near my own constituency. I am glad to know this, and I hope other hon. gentlemen will likewise come west and, if they cannot live there, establish some connections whereby they can learn more about the ways of the west—how easy it is to make and to lose money there, and all those other things that go to make up western Canadian life. In emphasis of that, I notice that Lady Byng, in a speech delivered before a large audience recently, stated that people should speak authoritatively of the Canadian resources unless they visited the western part of the Dominion. She was very generous in that respect. She pointed out that the cost of travel was great, but she went on to say that many people took extended trips to other parts of the world before visiting our western provinces. It is desirable that people of other parts of the country should visit western Canada, because it is difficult for those who live only in the eastern provinces to know much about the west, and vice versa. I am not criticizing those who have not been there; I am giving simply the general view that it is desirable that we should know more about other provinces than the one in which we happen to live.

I should like to refer to all the excellent speeches that have been delivered during this debate, but that would be impossible. I wish, however, to congratulate the leaders of the different groups on their addresses, all differing in many ways, but all of some virtue. The members of the opposition, if they have not ability in building up a policy have ability to debate. I understood last night that I was going to follow an old parliamentarian in this House, the hon. member for South York (Mr. Maclean), and I listened very attentively to his address. As he went on I thought he was almost qualified to come over to this side of the House. With many of his remarks I agree, in a measure, such as those he made respecting small banks and so on; they were at least worth debating. But he spoiled his argument at one stage when he brought forward what I presume to be the policy of hon. members on that side of the House, namely the amalgamation of the Canadian Pacific with the Canadian National Railways—there we parted company. I do not think that can ever take place.

To-day I looked forward to the speech of the hon. member for Frontenac-Addington (Mr. Edwards), because one of the great pleasures of a new member in this House is this: He has read or probably should have read reports of speeches of members, but he wishes to see how the performances of those who have represented the people in this House, for many years compare with the reports of the speeches we read in the newspapers and Hansard. My impression of the hon. gentleman was that he was a warrior, so to speak; but to-day as I listened to his speech his words were almost melted like oil on snow. They were almost the opposite of what I expected, and I wondered when he spoke if he had been disciplined by members of the opposition and warned that he should not at this session and the future sessions, speak as of yore. He quoted a beautiful piece of poetry which he said was composed by one of his talented daughters, and I came to the conclusion that as that was probably the best part of his speech, the entire speech had been made up by her. After that I lost all interest in his remarks, although in saying that I do not mean to offer any disparagement of his talented daughter, for whom I wish every success. I want to congratulate the hon. member for Queens-Lunenburg (Mr. Duff). Nova Scotia is my native province and my father and other relatives still live there. The hon. member and myself were good friends for many years, and I listened with much interest to his speech. He has a good grasp of the politics and different events in Nova Scotia; but it is difficult for me to understand many things that happen in that province. I lived there once, I was about thirty years of age, and I cannot get myself to believe or conceive that the people of that province have sent those eleven disciples who get up one after the other and express themselves as being pure followers of the Christian religious party. I cannot understand Nova Scotia as it exists to-day if that is the case. I can remember the

province on the sea where we traded with the West Indies, South America and all the other ports, and I cannot understand the people of that province believing—if they do believe—in this "brick for brick" retaliation policy of the opposition. I hope that I shall become more intimately acquainted with my friends from Nova Scotia and get to appreciate their point of view more fully, for I certainly cannot understand how the people of that province can possibly find any pleasure in hearing themselves represented as pure and unadulterated Conservatives. I rather think that those writers who tell us of the state of feeling down there have exaggerated and no doubt after the people have had an opportunity to read the speech of the hon. member for Queens-Lunenburgh (Mr. Duff) they will get a fairer idea of things.

I have no desire to touch upon any matters of controversy but I recall that the right hon. leader of the opposition (Mr. Meighen) in defining his position made the statement that his policy had been endorsed throughout the length and breadth of the Dominion. Living as I do in the province of Alberta, I cannot accept that opinion. The province of Alberta, together with Saskatchewan and Manitoba, comprises a great width and an equally great breadth; that area extends for about a thousand miles east and west and about a thousand miles north and south. The right hon. gentleman can hardly suggest therefore that in that extensive territory his policy has received any very wide support. Let me take an analysis of the vote in the last election as the criterion. In Manitoba the Conservatives had 70,264 as against a total vote of 98,732 cast in favour of the other parties, Liberal, Progressive, Labour and Independent; in Saskatchewan the Conservatives received 57,512 as against a total vote of 98,732 cast in favour of the rest; and in Alberta the Conservatives got 51,114 while the others combined received 109,995.

An hon. MEMBER: What about further west?
Mr. TOBIN (Wetaskiwin): I shall come to that in a moment. So that the Conservatives received in those three provinces a total of 178,880 as against 355,714 votes which the other parties combined received. Added together the votes cast for the Conservatives and the other parties total 534,594, the Conservatives share of 178,880 votes being thirty-three per cent. of the whole vote. Now if the Conservative vote in these three provinces represents only 33 per cent. of the total, I cannot see how the right hon. gentleman can very well suggest that his policy was fully endorsed in that great district. As we must recognize that the territory that can produce a section of 400,000,000 bushels of wheat is a portion of Canada that must be reckoned with. Someone suggested that I go further west. I did not intend analysing the vote given in the west but I may be allowed offhand to make a comparison in regard to the constituency of my hon. friend for Vancouver Centre (Mr. Stevens). In 1921 he had a majority over all others of 3,089, while in the election of 1925 there was a plurality against him, so that the vote was not as strong for the Conservative party in that instance as it was in 1921. I mention this fact merely because someone suggested that I draw comparison further west.

Mr. STEVENS: In justice and in order to be quite accurate, my hon. friend might state the full facts regarding British Columbia. There are ten Conservatives from that province now instead of seven.
Mr. TOBIN (Wetaskiwin): As I say, I referred to the hon. member's constituency simply on a suggestion. I find also that in 1921 the total Conservative vote in that province was greater than all other votes while in the last election it was smaller. These are the facts.

Mr. STEVENS: My hon. friend is wrong.

An hon. MEMBER: What about Nova Scotia?
Mr. TOBIN (Wetaskiwin): Nova Scotia I have already referred to; and in any case there are things I have feared in regard to that province that are past my understanding. Nova Scotia is my native province, and much as I should like to discuss it, I must proceed just now.

In considering the Address a number of hon. gentlemen have taken the occasion to refer to their own constituencies, and as none is one of the new ridings of Alberta perhaps I may be allowed to mention it briefly. In the first place I want to locate it so that hon. gentlemen may know exactly where it is. Everyone is of course acquainted with the city of Edmonton. The district of Wetaskiwin begins at the city limits of Edmonton and extends south some seventy-five miles and east and west about seventy-five miles, covering an area of about 5,025 square miles. The district runs from Edmonton to Calgary passes through the district, and we have a service of from six to eight trains a day on the Calgary and Edmonton railway, a branch of the Canadian Pacific. The district is well served by railways to the east, but the service westward is bad. There is a new railway in course of construction from Lacombe in a northwesterly direction over a circuitous route. It is being built by the provincial government, and an additional twenty miles is now being built.

—Continued next week.

DECORATE FOR THE FAIR

The citizens of Lacombe are requested to decorate their premises with flags and bunting for the Fair Days. Nothing gives the visitors a better impression than to see the town in gay apparel. Nearly every one now has flags, and with the addition of the decorations owned by the committee, it should not be difficult to make the town take on a holiday appearance. The committee, under the charge of D. Hay, F. E. McLeod, D. Chisholm, E. C. Chapman, Jack McKenzie, D. Cameron, P. Owen, D. Calder, Bert Thompson, in fact every businessman and fair director is taking a hand, report all arrangements complete, and look for a record turnout. Mr. A. Becher is Treasurer, with Mr. Schiedel, secretary of the committee.

We have private and company funds to loan on farm lands. Fraser-MacDonald Agency.

Maid wanted, apply Mrs. F. H. Reed, Experimental Station Lacombe.

Mr. E. E. Scott received word this week that his mother Mrs. R. B. Scott of Carleton Place, Ont. died on July 11. Mrs. Scott is known to a great many people in this district who will be sorry to hear of her death.

We want listings of farm land. Fraser-MacDonald Agency.

We have just received three Singer Sewing machines, that are practically as good as new and they are real cheap in price. Don't miss one of these. Lacombe News and Second Hand Store. H. E. Kennedy.

Mr. A. Stanley Stewart, now of Burlington, Ont., is in Lacombe district for a few weeks, and will do some survey work north west of Kinbey.

Real good stock ranch to rent. Fraser-MacDonald Agency.

Mr. James Hill, now of Los Angeles, is in Lacombe for a visit with friends. He is accompanied by his wife and child. He reports a pleasant trip by auto from California.

Be sure and attend Day's Sale of

Horses at his yard on Saturday 24th.

If you are looking for a bargain in horses, attend Day's Sale, Saturday.

Clear titled house in Edmonton to trade for half section and pay difference—house worth \$2000, and steady renter—get particulars. Fraser-MacDonald Agency.

BENTLEY NEWS

In spite of showers the Ladies Hospital Auxiliary held a very successful afternoon at Mrs. Evered's.

Mrs. Leitch proved wise; in many cases her predictions have come true already.

The secretary-treasurer reports that the afternoon was a financial success as well.

Mr. and Mrs. Clarence Hergott have gone to Lac La Biche, where Mr. Hergott is relieving agent for three weeks.

Mr. and Mrs. Olson and family are visiting Mr. and Mrs. D. Finch. They report a very pleasant six day trip by car from Washington.

Mr. Henry Castleman is adding a couple of rooms and other improvements to his house.

We are sorry to learn that Mr. and Mrs. Colpitts are leaving in a short time for Westlock, where Mr. Colpitts will take charge of the school.

Everyone is sorry to see them go, but as they are to be gainers by the move, we gladly wish them "good luck."

The rain Monday was very much needed and as it was very general, everyone is smiling.

The Garries Machine Co. are unloading bidders and repairs, preparing for the rush next month.

Mr. E. Packer and family arrived at Brownlow's Landing this week. They are visiting Mr. and Mrs. J. Dameron for a few weeks.

Born—At the Bentley Community Hospital, to Mrs. D. Lindsay of Rimby, a daughter.

Coming Events—Saturday, July 24th, 8:30 p.m. Picture Show. "What is Wrong with Wives."

A move is being made to re-establish church services in the Chapel School, 12 miles north of Bentley.

The first service is to be held on Sunday, July 25th at 3 p.m. Rev. Mr. Tate will be the preacher. It is hoped that as many as possible will attend this meeting. Everybody is invited. After this service there will be a discussion as to the advisability of having regular services with Sunday school at the close.

BLACKFALDS

Five days of extreme hot weather last week was about to cause damage to wheat on the light land, and it is spots damage is apparent. The heavier land however did not suffer. The rain of Sunday and Monday came just in time to give all crops a great lift. About twenty hours of steady rain soaked the ground and now the best prospects are ahead.

Miss Mildred Miller is visiting friends in Calgary for a few days.

The W. L. picnic last Wednesday was a splendid success. There were scarcely as many as on former occasions but all present had a real excellent time. Usual good eats, for which Blackfalds is noted, was spread in abundance for the dinner. The usual sports were run off.

Mr. Duval has moved into the large house just off Main Street.

Mr. Jas. Miller is down in the United States for a short visit. His father intends returning with him.

Mr. Irwin Godwin after spending a few months down at the Wainwright district has returned and will remain until after harvest.

Mrs. Ladden of Deer is visiting Mrs. Smillington this week.

Mr. E. Matthias is visiting friends at Custer this week.

A. C. Sorenson entrained on Monday for the state of Washington where he will spend a few months.

Stanley Roe has purchased a new Ford this week.

The Fitzgerald camp left on Monday last for near Edmonton.

The baseball game last Wednesday between Red Deer and Blackfalds was won by the visiting team.

COLIN CALDWELL AGAIN
HEARD FROM

Landing in a strange valley in northern British Columbia, Colin S. Caldwell, who is operating the big 450 h.p. Vidua wing amphibian plane for the Dunne syndicate in the N.W. territories, reports that this must be the so-called tropical valley, which has never before been definitely placed.

There are numerous hot springs in the valley, which was covered with rank vegetation and ferns, and it was swarming with moose and bear. The bears were attracted to the spot by the large quantities of wild fruit which grew in the valley.

Stranger of all he cleared up the mystery of a trapper's death when he landed in the mysterious valley. He found a note pinned to a cabin door by a man named Smith, who stated that he had been for years living there with his daughter. The visitor had heard before going that this man was thought to have been murdered by hostile Indians. The trapper told in his note of the wonders of the place, and said that he had left and was going down the Liard river in a canoe. Later the daughter turned up at Fort Simpson, alone. She verified these statements and said that her father had been drowned while trying to go down an extremely bad piece of "white water."

He has met with nothing very exciting this year, says Mr. Caldwell, who had the hull of his boat, the only one of its kind in Canada punctured by an Indian marksman in the Yukon last summer. He has covered some 4000 miles over the barren this season, and adds that it would drive a surveyor crazy to try and map the millions of lakes in the territory.

Mr. Caldwell leaves for the north by Tuesday's train. It took him two weeks coming down by train and boat, whereas he flew the distance of 500 miles from Lac la Biche in under five hours, going by plane.

DOMINION ELECTIONS
SEPTEMBER 11

Ottawa, July 21 The dominion general election was officially announced for the 14th of September and the main features of the Conservative campaign were outlined by the Rt. Hon. Arthur Meighen, Hon. E. L. Patenaude and Senator Robertson, addressing the opening meeting of the campaign here last night.

Several thousand people filled Ottawa's big auditorium. Half of them were ladies. Intense heat had a somewhat subduing effect, but the gathering was enthusiastic and the applause continuous.

The premier commanded most of it. He and Mrs. Meighen and several of the cabinet came into the big hall headed by a highlander with his pipe and the audience arose and extended a warm welcome. Mrs. Meighen was presented with a beautiful bouquet.

Brief preliminary was the unanimous renomination of Hon. J. L. Oxbott and Stewart McClelland, former Conservative members. After that came speeches. Senator Robertson, Hon. E. L. Patenaude and the prime minister addressing the meeting in turn.

On the platform besides many Conservative notables from the district were Hon. Messrs. Perley, Drayton, Bennett, Patenaude, Guthrie, Ryckman and Chaplin of the cabinet. Dr. Maloney, Preston and W. F. Garland, ex-M.P.'s.

SHELL-SHOCKED FRANCE

Another French Government has been discarded, and another one formed which is expected to go the same road as the last.

Briand's tenth cabinet wrecked itself, as so many predecessors had done, in the attempt to make France pay its war debts. The link was hardy dry on the debt settlements with the United States and Britain before the Government which negotiated the settlements was thrown out of office.

The France of war settlement days is not the France of war days. No country ever stood to its guns with more consistency than France in the four years of horror which ended in 1918. But France has wrecked every government that has proposed to start to pay off the cost of the struggle.

The explanation may be found in the reaction from the war harder than it did the Belgian. For four years he slept on his arms and lived on his nerves. A good deal of allowance has to be made for a man or a nation who has come through an experience of that kind. France is still suffering from shell shock.

Every lover of freedom and every one who is capable of gratitude must hope that for France there is coming a day of calmer mood, of self-control and of better times.

Paris for four years was the heart of free civilization at which the sword of autocracy thrust without ceasing night or day. The world cannot forget that the men of France who are suffering from political neuritis, were the Pollux who in the darkest hour of the war sent back from their shell-trenches around Verdun that agonizing framed in the face of death "They shall not pass."

Conservative Convention

The Conservative convention will be held in Wetskiwin on Wednesday, July 28, for the purpose of nominating a candidate for the federal constituency. The convention will be held in Angus Hall. Conservatives from this district are requested to attend.

Here and There

Tremendously rapid development of forest and water power resources of the Province of Quebec is indicated in the forecast of revenue totalling \$6,000,000 from these sources for the current year. Last year the same resources produced a revenue of nearly \$4,500,000.

Sixty men from the training camps in Brandon and Clapton, England, have been accepted by the Canadian Government and sailed on the "Empress of France" at the end of June. They proceeded to Winnipeg after landing at Quebec and will be placed on specially selected farms.

Saskatchewan exported last year 77.4 per cent. of its total production of creamery butter, according to a statement made by the Provincial Dairy Commissioner. The increase in production in 1925 over that of 1924 had amounted to 136.8 per cent., the output last year totalling 15,946,233 pounds.

Close on one hundred pilgrims from St. Paul and Minneapolis passed through Montreal recently on their way to the famous shrine of Ste. Anne de Beaupre, near Quebec. They were the advance guard of the great army of pilgrims that visit the shrine every year. While stopping off at Montreal they visited the St. Joseph Oratory in that city, also well-known as a shrine.

Hundreds of students and co-eds from Canadian and American universities have been passing through Montreal recently to board ships for Europe in connection with the Overseas Collegiate Tours that have grown increasingly popular of late years. Many of these collegians travel by Canadian Pacific boats, the "Empress of France" on a recent trip carrying over 250 of them.

Clad in gorgeous scarlet tunics, plentifully decorated with gold braid, forty members of the world-famous Coldstream Guards Band, of London, reached Quebec recently on the Canadian Pacific liner "Montcalm" on their third visit to Canada, having been here in 1904 and again in 1911. Under the command of lieutenant R. G. Evans they will play at Brandon, Calgary, Edmonton, Saskatoon, Regina, Vancouver and the Toronto Exhibition.

The electrification of the main line of the Imperial Japanese Government Railway system from Tokyo to Shimonoeki, 750 miles, has been long projected, and recently the 45-mile section between Tokyo and Odawara has had experimental runs by electric locomotives run twice a day between these points. Owing to the great expense involved it is feared it will be many years before the entire main line can be electrified.

Founded 92 years ago in gardens on the site of which the Canadian Pacific Railway Windsor Station in Montreal now stands, the St. Jean Baptiste Society of that city celebrated that event on June 24th last by having a memorial tablet affixed to the walls of the station. The tablet was the gift of Victor Morin, former president-general of the society, who was present and unveiled it.

Negotiations have been completed for the erection, and work will shortly commence, upon a terminal warehouse and cold storage plant, to cost about five million dollars and to be built in Montreal. It is stated that it will be constructed within ten months from the end of June, will be ten storeys in height and will have a total space of 600,000 square feet, of which one-third will be for cold storage. The plant will be built by the Montreal Rail and Harbor Terminals, Limited, and cost will be financed by Municipal Bankers' Corporation of Toronto.

Rev. W. J. Smith, Minister.

Here and There

The Right Honorable Viscount Keimatsudaira, attache to His Imperial Highness Prince Chichibu, second son of the Emperor of Japan, passed through Canada and left Vancouver for Japan where he will spend his vacation with his family. The Viscount will return through Canada to England in the fall.

Fifty-five young fellows who have been trained for Canadian farmers at the British Ministry of Labor's centre at Brandon, England, arrived in Canada recently on the Canadian Pacific S.S. "Empress of France." They came to this country, accompanied by Lt.-Col. G. A. Brinton, under the auspices of the Canadian Government and the C.P.R.

Arrangements have been made to install facilities for supplying both fuel and diesel oil to coast liners which will dock at the monster new double dock pier "B" and "C" of the Canadian Pacific Railway now nearing completion in Vancouver harbor. It was announced that eight marine elevators would be installed on the pier, the elevators being known as Barlow type on the Pacific coast.

262 Certificates were awarded to successful Sleeping and Dining Car employees of the Canadian Pacific Railway for passing their examinations in the First Aid Instruction classes. The extent to which First Aid instruction among C.P.R. teams is growing is indicated by the fact that the McAdams N.R. team was recently awarded the Wallace Nesbitt Trophy, in which competition Michigan and Maine also sent contestants.

Definite indications of the largest building year Canada has had in more than a decade are now shown by the record of the first six months of this year. The very large and unusual total of \$191,543,400 worth of new construction for the first half of the current year and contemplated new work to the value of \$304,598,500 forecasts great activity for the remaining months. During June contracts awarded totalled \$54,186,400, an increase over June, 1925, of 63 per cent.

Net profits of the Canadian Pacific Railway for the month of May at \$2,448,876, compare with \$908,913 in the corresponding month of last year, an increase of \$1,539,963, being the best showing in this respect since 1921. Gross earnings for the month are shown at \$14,492,758, an increase of over three millions, when compared with May of last year, and the highest gross showing by the road for any May since 1920. Working expenses for the month under review are shown higher by 1 1/2 millions.

Two officials whose tenure of office was practically contemporaneous with the existence of the Canadian Pacific Railway, have recently retired from that company. They are C. J. Flanagan, auditor of freight and telegraph receipts, and J. H. Shearing, auditor of passenger receipts, both were presented with gold watches suitably engraved, while members of their staffs gave them Mr. Flanagan a travelling bag, and to Mr. Shearing a malacca cane with a gold band engraved with an expression of the esteem of his staff.

Mayor Thomas Foster, of Toronto, and Mayor Mederic Martin, of Montreal, took advantage of the newly inaugurated Canadian Pacific trains "The Rideau" and "The York" between their respective cities to exchange letters of greeting. When "The Rideau" pulled out of the station at Toronto on its initial run, the engineer carried a letter from Mayor Foster conveying his greetings to Mayor Martin, who replied the following day in the same manner, but by "The York." Both trains make the run between Toronto and Montreal in eight hours.

MARRIED AT BANFF

Saturday, July 10th

Louis Elmer Calkins of Lacombe, to Miss Goldie Belle Knight of Rimby. The ceremony took place at the home of J. G. Thompson of Banff. A wedding breakfast was served by Mrs. Thompson. Mrs. W. H. Ashley, supported the bride and Mr. W. H. Ashley acted as best man. The happy young couple returned on Wednesday evening by car. They will make their home here. The ceremony was performed by L. H. Lonsdale, of Banff.

ST. ANDREWS UNITED CHURCH
Rev. R. B. Layton, Minister
Service at 11:15 a.m. and 7:30 p.m.
Mr. Harold Hunt will sing at the evening service.

At Jack Fish lake service will be held at 3 p.m. on Sunday. Everyone welcome.

Liberal Convention on Monday
A convention for the purpose of nominating a candidate to contest this constituency in the Liberal interests, will be held at Wetskiwin on Monday, July 26th.

S. BEEMISH

Painter and Decorator
Estimates given free for painting, paperhanging, kalsomining, etc.

All Work Guaranteed
Phone: Kent & Barker, or call at my residence, Glass St.

Just received a half carload of dressers, chiffoniers and tables that are in fine shape and our prices are away below the mail order houses. Look these over if you need an extra piece of furniture. Lacombe's New and Second Hand Store. H. E. Kennedy.

WILSON'S
FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Drug-gists and General Stores—10c and 25c per package.

MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by "The Land Titles Act" under a certain mortgage which will be produced at the time of the sale.

There will be offered for sale by public auction at the Rimby Land Agency in the Village of Rimby, in the Province of Alberta, on Friday the 30th day of July, 1926, at the hour of 2:00 o'clock in the afternoon, the following property, namely:—

Firstly—The North East Quarter of Section Ten (10), Township Forty-one, (41) Range Four (4), West of the Fifth Meridian in the said Province, containing by admeasurement One hundred and sixty acres more or less. Reserving thereout all mines and minerals.

Secondly—All of Section Fifteen (15) Township Forty-one (41), Range Four (4), West of the Fifth Meridian in the said Province, containing by admeasurement Six hundred and forty acres (640) more or less, reserving thereout all coal. Excepting thereout 2 acres more or less for Gimlet School District No. 1974.

Terms of Sale to be ten per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserve bid free from all encumbrances save taxes for the current year.

The vendor is informed that the N. E. 1-4 10-41-4 W 6th is situated 17 miles from Exbury and 18 miles from Rimby. Ten acres have been cultivated and twenty five acres are suitable for pasture. The balance is low lying, on which there is a considerable quantity of timber.

Section 15 is situated 15 miles from Rimby and 4 miles from Leadale. Post Office: 415 acres are under cultivation. The soil is a black loam 12 in. deep with a clay sub-soil. 295 rods on the North boundary. 150 rods on the West, 320 rods on the East, and 160 rods on the South boundary are fenced with three strands of wire and tamarac posts.

The buildings consist of a frame dwelling 24 x 18, a small garage, a log and frame barn, a frame barn and two small frame outbuildings.

For further particulars and conditions of sale, apply to Messrs. Emery, Newell, Ford and Lindsay, Barristers, Canada Permanent Building, 100th Street, Edmonton, Alberta, Vendor's Solicitors.

Approved: A. T. Kinnaird, Dep. Registrar.

NOTICE TO CREDITORS AND CLAIMANTS

In the matter of the estate of John Henderson of the Town of Lacombe, in the Province of Alberta, Gentleman deceased.

Notice is hereby given that all persons having claims upon the estate of the above named John Henderson, who died on the 2nd day of June, A. D. 1926, are required to file with Thomas Henderson, Lacombe, Alberta by the 24th day of August, A. D. 1926, a full statement duly verified, of their claims and of any securities held by them, and that after that date the executor will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to his knowledge.

Dated this 2nd day of July, A. D. 1926.

J. S. McCormick, Lacombe, Alb., ex. Solicitor for the said Executor.

MAIL CONTRACT
SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 27th day of August, 1926 for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years, 12 times per week on the route—Morning side and Catch Post (Can. Pac.) from the Postmaster General's pleasure.

For a full and complete information as to conditions of Contract may be seen and blank forms of Tender may be obtained at the Post Office of Morning-side and at the office of the District Superintendent of Postal Services at Banff.

Massey-Harris Implements, Threshing Machinery, and Harness

We have taken over the local agency for the Advance-Rumley Threshing Machine Co., and if you are interested in Threshing Machinery, come in and talk it over with us.

We have for immediate delivery one second hand 22 inch Rumley Separator in A1 shape. A snap

We can get your repairs on the shortest notice.

We also represent the Waterloo Manufacturing Co., and the Twin City Separator Co.

ABOVE ALL--THE RIGHT HAT!

A variety of hats will aid you in the breathless changes of costume during these vacation days. We have the latest models for sports and formal wear. With several of these in your wardrobe, you will know you are correct.

The best prices in town on dresses while they last. We carry no stock over.

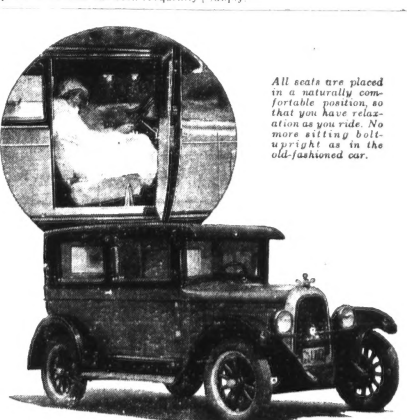

Mrs. Dyke, Millinery and Ladies' Wear

CAMPAIGN IS SUCCEEDING

That the movement of Canadian fuel independence is achieving substantial results is made clear by a circular that has been issued by the Department of Commerce at Washington. It states that the market in Canada for American Anthracite is steadily decreasing and that to arrest this tendency an advertising and educational campaign is necessary. It is to be expected that those engaged in the American coal industry will be anxious to maintain their hold on the Canadian market, but why should the rest of the people of that country be concerned over the lessening of the shipments to this side of the line? The anthracite supplies in sight are strictly limited and it is to their interest to have these conserved for their use.

Because this is so, an embargo on exports to Canada has been frequently suggested and that threat has been a large factor in stimulating the desire of Canadians to be assured of adequate supplies from within their own territory. Our national supply demands such protection and, apart from this threat, it is also recognized how much our economic structure would be strengthened by having our fuel needs met from within our own borders and the money that now goes to the United States kept at home.

The growing feeling in Canada in favor of more extensive utilization of Canadian coal deposits, which the department of Washington stresses, is not likely to undergo a diminution despite any steps taken across the border to curb it. With proper governmental encouragement to the building up of an interprovincial traffic Canadian consumers will look less and less to American sources of supply.

Canada's First High-Speed
European-Type Light Car

The distinctive body lines of the New Overland Whippet resemble the smartest custom built automobiles of America and Continental Europe. Stand in front of this car and you can imagine yourself on the boulevards of France.

It will travel 55 miles an hour in perfect comfort . . . pick-up in 13 seconds from 5 to 30 miles an hour . . . go 35 miles on a gallon of gasoline . . . 1000 miles on a gallon . . .

Measured tests show that the Overland Whippet, with its 4-wheel brakes, will stop in two car lengths from a speed of 25 miles an hour. The Overland Whippet is 5 feet, 8 inches high . . . not as tall as the average man. Yet it provides more room and comfort than you've ever found in any automobile of this class before.

WORLD HAPPENINGS
BRIEFLY TOLD

Miss Catherine Jellison, an aunt of the Earl of Jellison, died at Southampton, June 27. She would have been 125 within a few weeks.

Col. M. McLean, 87, Fenian Raid veteran, whose father was a factor for the Hudson's Bay Company in Western Canada, is dead.

Raskatchewan's bee population has been increased this year by a big influx of imported bees from various points in the Southern States and also Manitoba aparies.

The King and Queen opened a new wing of the Tate Picture Gallery, near Westminster, including a special gallery housing 200 oil paintings, water colors and sketches of the late John Sargent.

Pickets enforcing the anti-British strike and boycott against Hong Kong killed five persons and wounded another when they fired into a group of Chinese about to board a vessel from Hong Kong.

Exile to the Marla Islands has been decreed by the Mexican Government as the penalty for illegal sale of narcotics. Proprietors of stores caught selling drugs illegally, will be forbidden to operate drug stores in Mexico again.

League of Nations officials insist that the resignation of several or any of the small powers will not seriously affect the league's influence, and that only if a great power like Great Britain or France resigns would the league be really in peril.

Labor leaders in Harbin, Manchuria, are collecting \$20,000 to be sent to England to aid striking British miners. Members of professional unions are required to subscribe one per cent of their monthly wages to make up the \$20,000 quota.

The League of Nations' commission of experts on reform of the calendar has decided to recommend that the second Sunday in April be the fixed date for Easter. The decision is subject to an agreement with the Holy See, which was not represented at the last meeting of the commission.

Remarkable Machine Invented

Cuts and Sewa Up Complete Suit of Clothes in Five Minutes

There is being exhibited privately at Washington a machine which the inventor claims will cut and sew a complete suit of clothes in five minutes, leaving only the buttons to be put on by hand.

The cloth and linings are fed into the machine from a roller, much in the way paper is run into a printing press. The machine can be adjusted to any size suit. The machine cuts the material and lining and then 80 separate and distinct sewing machines complete the work. The suit is delivered turned inside out and only needs to be turned and pressed before delivery. The machinery for each garment, pants, vest and coat, is separate, but all a part of the whole machine.

The inventor has spent eight years perfecting it. It will be placed on the market this summer.

A complete machine will be set up at the Philadelphia Sesqui-centennial Exposition.

Workmen's Compensation Act

Canadian Medical Association Aids Advocating Some Changes

The council of the Canadian Medical Association, holding its annual convention at Victoria, B.C., decided to make efforts to bring about co-operation between the various provinces of the Dominion in the treatment of injured workmen.

A report from the council's committee on inter-Canadian relations pointed out that under the present conflicting system, if a man is injured in one province and departs there from for his home in another province, he loses his rights to workmen's compensation and medical and surgical aid.

The council decided to take the question up with the Trades and Labor Congress, the Federation of Provincial Governments, in an attempt to have legislation passed making it possible for a worker to leave the province in which he was hurt to join his family.

New York's Food Consumption

The amount of food consumed in New York City in one year would fill a freight train extending from Cuba to Alaska. There are 1,000 restaurants in that city catering to one common person's taste.

Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zaleski, foreign minister.

French Army Salaries Small

So low are army salaries in France that officers in each cavalry regiment and professors in the War College are seeking at night labor to augment their income. Many are in debt.

The man who keeps an eye on the Box, regarding observers from the police, will have himself a lot of trouble.

Some men are willing to pay cash for everything except their shirts.

W. N. I. 1936.

Northern Route For Cattle

Mayor of Saskatoon is a Strong Supporter of the H. B. R. Mayor Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon press, his words were:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway connection as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. From there the H. B. R. runs 88 miles and from that town to Port Nelson is 424 miles, being a total of 87 miles from Saskatoon to tide water. The proposed line giving Saskatoon direct connection with the Hudson Bay Railway would, no doubt, pass through Humboldt.

"It can reasonably be anticipated," said the mayor, "that one of the many readjustments in the routing of traffic following the opening of the bay route will be in connection with the great cattle industry of Southern Alberta. I anticipate the day when those cattle will pass through Saskatoon enroute to Liverpool and other European ports."

"From, say, Calgary to Montreal via the Canadian Pacific Railway is 2,245 miles. From Montreal to Liverpool via the H. B. R. is 555 miles, of which a portion of the year is 2,760 miles, a total, Calgary to Liverpool, of 5,005 miles, the rail haul being 45 per cent of the total mileage. From Calgary to Liverpool via Montreal and Cape Breton, the route is 5,555 miles, of which the rail haul is 42 per cent.

"From Calgary to Port Nelson, via the proposed direct line, Saskatoon to Hudson Bay Junction, the mileage approximately would be, Calgary to Saskatoon, 400 miles; Saskatoon to Port Nelson, 687 miles, a total of 1,087 miles—say 1,100 miles—and from Port Nelson to Liverpool 2,666 miles—a total of 4,666 miles, of which only 27 per cent is rail haul."

The mayor, as one familiar with the subject, pointed out that cattle in transit "shrink" during railway travel, they "pick up" on board ship. Also that the coolness of the bay route would insure their arrival at port of disembarkation in fine condition and he stressed the marked advantages as favoring the bay route for cattle shipment—less total mileage and a lower percentage of that total being rail haul than that of any existing North Atlantic route."

Will Fight Communicable Disease

Health Officers of North America Meet at St. Seymour

At the annual meeting held in Atlantic City recently of the Conference of State and Provincial Health Officers of North America, Dr. M. M. Seymour, deputy minister of health for Saskatchewan, who is president of the conference this year, in his presidential address brought forward a scheme for increasing efficiency in dealing with communicable diseases in North America. The plan was most heartily endorsed by the conference, and has been approved by Hon. J. C. Elliott, minister of health, Ottawa; by the International Health Board and the United States Public Health Service, as well as by Hon. J. M. MacKenzie, minister of public health for Saskatchewan. It was so well thought of by the conference of State and Provincial Health Officers of North America that a resolution was passed endorsing it, and it was to be known as the Seymour Plan for the control of diphtheria, smallpox and typhoid fever.

The general idea of the plan is to devote the months of September and October to the prevention of diphtheria, November and December to the prevention of smallpox, and January and February to the prevention of typhoid fever. The association has already appointed a committee, each member of which is to take the lead in his own part of the country, and steps have been taken to secure the endorsement of the plan by the organized medical profession, of all voluntary health organizations, and of the press.

Australians Speak Pure English

Adhere Closer to Standard Speech Than Many People in England

There is a greater adherence to the standard speech of the English language in Australia than in many parts of England itself according to Ronald Chumley, visiting examiner in elocution at Australia and New Zealand in England. The present-day Englishman, pointed out, that only twenty miles from London one can hear a dialect that is barely understandable while throughout the country his examination disclosed a fairly uniform adherence to standard speech of the language.

Sounded Too Familiar

First Dub. How did you like that last night?

Second Dub. Well it seemed like a good show, but it was all made up of quotations.

Statistics enable a man to prove anything except the truth of the figures.

It is all right to make some things go as far as possible, but it is not to stretch the truth.

Terrible Conditions In Siberian Leper Colony

Grave Englishman Makes 15,000 Miles Journey to Help Outcasts

A terrible journey of more than 15,000 miles by sleigh and horseback across the frozen wastes to the far north of Siberia to help the outcast lepers—that is the wonderful story of Miss Kate Marden, a quiet, elderly woman who now lives in seclusion in a rose-covered cottage in a tiny Midwestern village.

Miss Marden is now working to try to start a leper fund all over the world when everyone will give a penny to help outcast lepers. "I have been all over the world looking for lepers—but now I can go no more," she said recently. "I am crippled as a result of my journey across Siberia, and have decided to stay here out of the world to help the lepers with my prayers and with what organizing I can do."

"In the far north of Asia, the coldest place in the world, there are nine months of darkness and winter, with a temperature of over 60 degrees below zero. It is in this waste land that the leper is driven."

To prepare for her journey, Miss Marden rubbed fat over her body and then put on three thicknesses of fur and eldorado stitched together as clothing. During all her journey, she was unable to change or have a wash.

From Yakutsk, Miss Marden struggled for 2,000 miles further north, this time on horseback, until at last she reached Irtysk, where the lepers lived.

When she reached the lepers they threw themselves at her feet, so surprised were they that anyone should come to visit them. "The smell was horrible, disease was everywhere, and it was impossible to get into the huts, so crowded were they," was Miss Marden's description of the scene.

On her return to Moscow, Miss Marden started a fund to get assistance for the lepers. "When the revolution came," she said, "all that was finished and now we are trying to start the work again."

Reveals Activities Of Communist Party

Letters Published in Blue Book Issued by British Government

The British Government has issued a blue book in which are revelations of the alleged activities of the Communist Party in Britain and its relations with Moscow.

The blue book contains many letters from various Communists to their agents in Great Britain. One letter, referring to a campaign in connection with the miner's movement and dated August, 1925, was addressed to Agrippa, the agitation and propaganda department of the Communist International.

Other letters refer to a successful campaign being conducted among the British workers by the formation of a Lenin school of activities in British factories and work among the police force in India as well as among the British working class.

"It is of immediate importance that the British workers be drawn into a fight against white terror, capitalism," says one communication.

Another letter published in the blue book consists of a tirade by the Communist member of parliament, Saklatvala, against the British Labor Party, in which he attacked the party as "a tool of the bourgeoisie."

A suggestion was also thrown out in one letter that Saklatvala have a private conversation with Indian students at Oxford before they depart for India.

Work among Chinese in Eastern London was mentioned as was a campaign among Hindu peasants.

Britain's Oldest Admiral

Only Living Naval Officer Born in the Reign of William IV.

Britain's oldest admiral, and the only living naval officer born in the reign of William IV, celebrated his 90th birthday by attending the races at Ascot. He is Admiral Sir Edmund Fremantle.

When he entered the navy in 1849, it consisted mainly of sailing vessels. My first vessel was the "Queen," he said. "She was a three-decker and carried a crew of 300 men. We flew the flag of Sir William Parker at one time one of Nelson's captains."

Admiral Fremantle is himself a descendant of one of Nelson's captains. Thomas Fremantle, who commanded the "Neptune" at Trafalgar. He is the father of Admiral Sir Sydney Fremantle.

Strange Aquatic Animal

A strange-looking aquatic animal reported to be half the length of a horse and believed to be a giant slug, seen in a stream known to abound in northern waters, was seen in the Ottawa River recently. It was first thought to be one of two pet alligators who escaped from Alvin Gray, but later, but naturally, when an alligator could not survive a winter in a frozen river.

It was the Emperor Maximilian who by adding January and February to the calendar, deposed March from its original position as the first month of the year.

The first printing press in America was established in Mexico, about 1549.

Not Considered A Handicap

Many Remarkable Feats Accomplished By Men With Artificial Legs

Recent questions in the British Parliament regarding the supply of artificial limbs to ex-soldiers drew from the minister of pensions some illuminating statistics and facts bearing on the feats accomplished by one-legged men.

One interesting revelation was that it is seldom nowadays that a man who has lost a limb is unable to return to his regular employment, so great have been recent advances in the designing and making of artificial legs and arms.

There are men today who are so little restricted by the use of a false limb that they are as efficient as if they had the normal complement of arms and legs. One man who lost a leg four years ago has driven a car upwards of 300,000 miles and has never had an accident. Another man, similarly placed, takes part in motor racing contests.

Men with wooden legs have made fine records as athletes. A man with two wooden legs walked a mile in 3½ min. Another, with an artificial leg, broke a record with a high jump of 5 ft. 7 in.

England Holds War Pageant

Greatest Military Tournament Ever Held Was Staged at Aldershot

Probably the greatest military tournament ever held in England, was staged in 40 acre arena at Aldershot on June 15 in the presence of 30,000 persons.

The producers stirred up history minutely and rapidly, for scarcely 40 minutes elapsed between the overthrow of the Saxons by William the Conqueror and the encampment of a modern British army under the walls of an eastern city with the latest thing in aeroplanes dropping bombs and tanks travelling 20 miles an hour.

The Charge of Light Brigade was depicted with such regard for accuracy that the actual trumpet used at Balaklava was heard again and the gunners handled genuine brass guns of the Crimean period.

Muscle by muscle bands totalling more than 1,000 pieces, was an impressive part of the event, but truly stirring was the final incident when the whole might of the company sang the hymn, "The Day Thou Gavest."

Populous India

With 350,000,000 Inhabitants India Has Over 200 Languages

Some idea of the number of people living within the borders of India may be learned by totalling the millions who populate Canada, the United States, South America and Africa, deducing from the total the population of India.

In a recent address, Mr. Verghese spoke of India's 350,000,000 population and said 250 different languages were used in the many districts of the country.

It is declared that by allowing the stomachs of the people to be fed by the stomachs of the people, it is believed that this manner of fighting such diseases as typhoid is much more efficacious than injections.

Dedicate Window In Westminster Abbey

In Memory of British War Prisoners Who Died in Germany

A beautiful window in the north side of the nave of Westminster Abbey, which was donated by James W. Gerard, former United States ambassador in Berlin, in memory of British prisoners of war who died in Germany, was dedicated in London. The ceremony was performed by Dr. Foster, dean of Westminster. Mr. Gerard was represented by Alanson H. Houghton, the American ambassador to London, and many other Americans were present.

Canadian Judges at American Shows

J. Charles Vile of Carleton Place, Ont., Is Appointed Judge of Showman's Fair at Springfield

The Illinois state fair at Springfield will be judged by J. Charles Vile of Carleton Place, Ont., who was appointed judge of the showman's fair at Springfield on August 21 to 28. Dean H. Houghton, of the Illinois state fair, is expected to judge the milk show at Springfield on September 12 to 19. Canadian judges are not used for the quality of their work wherever called on to perform.

Just wishing things would change is about like sticking a watch to the thermometer to make the room warmer.

Great Changes At Kiel

Years Have Made Vast Difference In Island Fortress

Nowhere would the Kaiser, were he to return to his country, find a more poignant contrast between the present and the past than at Kiel.

William II. was the creator of this powerful naval base, with its huge docks and all the apparatus of ship-building and repair. He was the builder of the formidable fortifications defending the sea approaches. This was the scene of some of his great moments when as commander-in-chief of the fleet he steamed into the harbor as rounds of applause poured from dozens of guns.

Today the harbor looks empty. The forts are partly dismantled. The naval academy is closed. The castle, which Prince Henry, the Kaiser's brother, lived in is an office building. The Yacht Club House, presented by the elder Kruger, is now a scientific institute. It was there the Kaiser, surrounded by his admirals and generals, made many an utterance that caused ripples in foreign chancelleries. Everywhere are suggestions of decay and neglect and change.

Will Survey Barren Lands

Scientists to Report on Suitability of Grazing Fields For Reindeer

In order to investigate the possibility of breeding large herds of reindeer in the Barren Lands of the Mackenzie district to provide a dependable food supply for people of that country, a party of scientists is being sent into that country this summer, according to information received from Dr. F. J. Lewis, professor of botany at the University of Alberta, who has just returned from a scientific convention at Ottawa.

The party will be in charge of two sons of Professor Pofford, director of the Biological station at Bisco, Green land, and plans to spend two years in the Barren Lands. Here they will make an extensive survey of the country, paying particular attention to the study of the vegetation in all districts coming under their survey.

The ultimate object of the survey will be to determine the suitability of the flora of the various regions for reindeer grazing. The necessary equipment for preserving specimens will be taken into the north by the Pofford party, and collections will be made for the authorities at Ottawa and also for the Copenhagen who are anxious to finance the expedition.

Two methods of approach have been suggested to the survey party, and it has not yet been definitely settled which one will be taken. One is by way of Alaska, and then overland into the Barren Lands, the other by way of Edmonton and the Mackenzie water course.

Capsules That Combat Disease

Important Discovery Made By Professor at Pasteur Institute

A sensational discovery, which it is claimed may possibly revolutionize medical science, is made public by M. Besredka, the successor of Professor Metchnikoff, at the Pasteur Institute in Paris.

It is declared that by allowing the stomachs of the people to be fed by the stomachs of the people, it is believed that this manner of fighting such diseases as typhoid is much more efficacious than in injections.

Looks Like Pleasant Farm

But England's Leper Colony Is Lonely Isolated Spot

England's leper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses set in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding, but the inhabitants of the houses are lepers. They are British men, women, and children who have lived abroad, and who once in perfect health have contracted leprosy. An Anglican slaterhead pines them the most tender care.

Selling Fowl By Auction

Selling deers fowl by auction is a recently added feature of Johannesburg Municipal Market.

They are auctioned in braces so that the ordinary householder can bid for them. In addition, of course, there are the usual sales of live poultry.

Coming To Canada

Fifty six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Clonville in Suffolk, left for Canada recently on the Empress of France.

They will proceed to Winnipeg, where they will be placed on selected farms.

Wedding In Church For Deaf

The first wedding in the New Kyan church of the Deaf, Toronto, took place in June, when Miss Elsie (Kilson) was married to Mr. Elias (Kilson) by Rev. A. J. Richards.

The ceremony was interpreted by Mrs. J. Byrne.

Take Buffalo Census

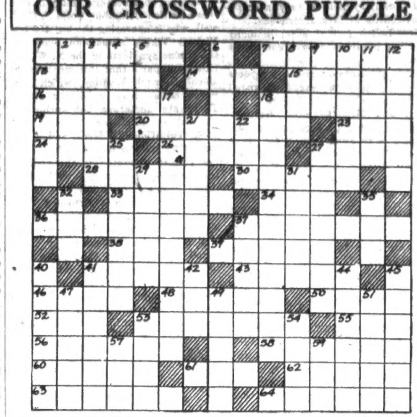

A census of the buffalo herds in the various national parks of Canada taken on December 31, 1925, shows that in Buffalo Park, Wainwright, there were 8,373 buffalo in Elk Island Park 146, and in Banff Park 23.

Take Buffalo Census

A census of the buffalo herds in the various national parks of Canada taken on December 31, 1925, shows that in Buffalo Park, Wainwright, there were 8,373 buffalo in Elk Island Park 146, and in Banff Park 23.

A man has outlived his usefulness when he is no longer capable of giving advice.

OUR CROSSWORD PUZZLE

London Zoo Reaches Centenary

Started With Two Birds Now Has Three Thousand Animals

Although the annual general meeting of the Zoological Society this year was only the ninety-seventh, the fact remains on that day the London Zoo had been "in existence" exactly one hundred years.

Centenary celebrations, however, will not take place until 1929, as, although the society started in 1826, it was not until 1929 that a royal charter was granted.

There are more than 3,000 animals in the zoo today; a hundred years ago a start was made with a griffin vulture and a white-headed eagle, with an Indian deer to follow. Joshua Brookes, a famous anatomist, presented the vulture, which for nearly forty years was known as Dr. Brookes.

The quantities of food officially consumed in the zoo are enormous. There is no computation of the tonnage of bones, bananas, turnips, potatoes, treacle, fish, fowls' heads, rabbits' legs and other tit-bits daily thrown to the inmates by the public.

The report records, among a mass of miscellaneous foods given at regular intervals, the following:

May, 157 tons; clover, 108 tons; oats, 6,880 bushels; rolled oats, 608 pounds; limes, 441, or approximately 220½ tons; goats, 139; place, 1 ton 2 cwt; herrings and whiting, 41 tons 6 cwt; shrimps, 1,825 pints.

Looks Like Pleasant Farm

But England's Leper Colony Is Lonely Isolated Spot

England's leper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses set in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding, but the inhabitants of the houses are lepers. They are British men, women, and children who have lived abroad, and who once in perfect health have contracted leprosy. An Anglican slaterhead pines them the most tender care.

Selling Fowl By Auction

Selling deers fowl by auction is a recently added feature of Johannesburg Municipal Market. They are auctioned in braces so that the ordinary householder can bid for them. In addition, of course, there are the usual sales of live poultry.

Many districts in Java are permeated with petroleum.

In places, if a handful of earth is taken up and squeezed a stream of oil may be forced from it.

Success is the only thing that can turn a man's head when he has a stiff neck.

Summer Sale of Hosiery and Underwear for Women and Children

Children's Short Socks, fancy tops. Sizes 4-12 to 8. Sale Price 25c. Regular 35c. pair.

ALL READY FOR THE FAIR

The various committees in charge of the Lacombe Fair, to be held on Monday, Tuesday and Wednesday next, July 26, 27, 28, report arrangements completed and expect to have the most successful event ever held here. Entries are coming in in greater numbers than in past years, and every department will be filled. The stockmen will have an exceptionally good exhibit, while the horsemen will endeavor to bring out the best animals in the district. There will be heavy entries of hogs, sheep, poultry, grains, etc., in fact, it is expected that accommodation at the grounds will all be taken up before the close of the first day. There will be a splendid program of sports of all kinds, horse races, Indian races, etc. There will be a large merry-go-round on the grounds for the amusement of the kiddies and a flock of funny clowns will do their bit to provide happy moments for the youngsters. The Midway will be a special feature this year, and will be in charge of our businessmen, as last year. In this way, every cent you spend will reach the place it is intended for—the fair grounds debt—and you can spend your money freely, knowing that it is going for a good cause and not going out of town in the pockets of a bunch of short-string peddlers. There will be high class grandstand attractions, featuring minstrels, colored and white, dance artists, vocalists of all nations; orchestras; and everything else that the committee thinks will in any way add to the enjoyment of the visitor. See the programme of racing and other sports in another part of this paper and make arrangements to be in Lacombe for Tuesday and Wednesday, 27th and 28th. Judging and placing of stock and exhibits will be completed on Monday, 26th.

The Elk's Band, the premier band of Central Alberta, will be in attendance all the time, and the dancing pavilion will be in charge of the best orchestra procurable.

A feature of the two days' will be the football games. Five teams have entered for this event, which is for the Lacombe Citizen's Cup and a cash prize. Ponoka holds the cup at present, and there is going to be keen competition.

There will also be a basketball tournament, and a large number of teams have entered.

MORNINGSIDE

Mr. and Mrs. Nelson and children of Olive visited with Mr. and Mrs. Seal on Sunday.

Miss Stock of Olds, is visiting with her sister, Mrs. Royal Murdoch.

Among those from here who attended the Edmonton Fair were: Mrs. Seal, Mr. and Mrs. C. Murdoch, Mr. and Mrs. McDougall, Misses Elizabeth and Beatrice and M. and C. Hall C. P. and Gene Ward, Lloyd and Harry Bowie and Lee Sweet. All re-

port a good time. The Morningside friends of Mr. and Mrs. Waldron extended to them their sincerest sympathy in the loss of their little daughter, who passed away at their home in Ponoka last Sunday.

Just as the morning of her life was opening into day, Her young and early spirit Flashed from earth to Heaven away.

The regular meeting of the W.M.S. was held at the home of Mrs. Sutherland last Thursday. Pres. Mrs. Bowls, presiding. There were eleven members present.

One of the most pleasing features of the afternoon's programme, was the recitation by Miss Laura Pizgal, one of Calgary's young electricians. She was in splendid voice and by her charming personality delighted every one present. All look forward to the time when she can again be with us.

Mrs. Stock of Olds and Mrs. Cromel also sang solos which were much appreciated.

Rev. Mr. Lobb of Blackfalds preached a very acceptable sermon here last Sunday evening. Rev. Mr. Smith preached at Blackfalds.

LOCHINVAR

Being quite warm these days—we'll give you something to read to pass the time away!

Mr. Bill Kent is indulging in surgical work at the present time.

Mr. D. W. Ford and Miss Alice Johnston attended the Sunday Services at Muskowke on Sunday last.

Friday evening last, several gathered at the home of L. A. Brenneholtz for the reception given for his mother and several sisters, also Rev. and Mrs. Sykes (the parents of Mrs. Brenneholtz). Everybody enjoyed the evening immensely, hoping they would all meet again within a short time.

Mr. Elmer Nelson is in from Buck Lake—on a flying trip.

Mr. Seth Wells was a visitor in the district last Tuesday.

Wanted—One mule guaranteed to drive single and will pull a Ford car which stands in front of Mr. John Sauve's gate.

From all appearances there was quite a large crowd from the Lock-Invar district which attended the circus in Ponoka.

Herman Taylor and Bud Davidson were busy the past week, and intend to be for some time yet preparing for the big Stampede which they are having July 21st at Nathan Taylors Ranch.

With expectations of a big crowd, they are getting 'everything' in first class shape!

Mr. W. J. Riley is spending a week in Lacombe.

Mr. Art Ogilvie and Mrs. E. C. Uhlman had visitors on Monday last.

had a wonderful trip. Mr. and Mrs. W. A. Archibald and family were Sylvan Lake visitors on Sunday.

Mr. O. Johnston spent a few days in Ponoka last week.

We are sorry to hear of the cattle dying with Black Leg in the surrounding districts.

HELP THE LACOMBE BASKETBALL TEAM

The fourth annual Basket-Ball Tournament is being held here on July 27th and 28th, and as in previous years, housing accommodation needs to be provided for the out of town girls. We therefore take this opportunity of soliciting your co-operation in this matter. If you can take a girl or two for their stay in Lacombe your kindness will be more than appreciated. Please let Barney Halpin have your names and the number of girls you will be able to take. This year's tournament will likely be the biggest ever held here, and consequently all available help will be needed to house the visitors. The girls will not however have their meals at the places where they will be staying.

GOOD ROAD WORK

Mr. Editor:—I beg to take this opportunity of expressing my appreciation of the magnificent work done on our road by the big grading outfit under Mr. J. Kasha and his courteous crew.

The whole two miles was completed in a very satisfactory manner in or under 20 hours, at a cost I am told of \$150.

I am sure it would be quite impossible to do the same amount of work with teams for \$600.—Then again, Kasha's merry men have practically caused no inconvenience as compared with teams.

Councillor Ellis, thank you for fixing our road for us. Mr. Gibson is certainly to be congratulated on his perspicacity in procuring such a splendid outfit which must mean, eventually, a great saving to the municipality. The grader certainly gives us better roads than could possibly be made with teams.

I would heartily recommend our councillors and everyone who is interested in better roads to come and see the work. The road is one mile west of Sattinwood school and south past my place and Mr. C. Stuart. If the road had been made for exhibition purposes, it could not have been done any better. This is the outcome of first-class implements in the hands of intelligent men who know their job.

Gwyn L. Leng, Sattinwood.

THE JOKE WAS ON LEN

The other day a man with about a six week's growth of balshvick whiskers paid a visit to Len Paddison's barber shop, and asked Len for the loan of a pair of clippers. Thinking that the man wanted to do a little clipping on a youngster in his ear, Len gladly complied. When Mr. Man got the clippers he sauntered over to the mirror in the shop and put in about ten minutes clipping his own whiskers, and then returned the

SPORTS PROGRAM LACOMBE FAIR

Big Indian Pow-Wow on both afternoons and evenings.

clippers to Len with a thank-you, and many of the berries measured walked out. It is not often that you catch Len in a place where he can't give vent to his feelings, but in this case he was so dumfounded that he could not speak until his man was well on his way up street, and the other customers commenced to give him the merry ha, ha. He says this is a real new one on him.

Mr. Gibson informs us that the growing of strawberries is an experiment at Lacombe. Strawberries of excellent quality were grown twenty-five years ago by the late C. A. Gibson, on his farm four miles west of Lacombe. The varieties he grew were the William Belt and Senator Dunlop.
